EDUCATION

Btech. in Computer Science and Engineering Vellore Institute of technology, Bhopal, MP

07/2019 - Present

7.3 GPA

Courses

- OOP, DSA, DBMS, Computer Network, Ethical Hacking

High School (12th std.)

Army Public School, Bathinda, Punjab

04/2017 - 04/2018

79.9%

High School (10th std.)

Army Public School, Agra

9.0 GPA

PERSONAL PROJECTS

Telegram Bot | Python, Telegram API, MySQL (03/2021 - 04/2021)

- A telegram bot which keeps a track of '+1' mentioned to the messages in a group. This feature enables a second hand functionality of 'liking' feature to the telegram group chat.

Titanic Survival | Jupyter, Python, ML (05/2021 - Present)

- Designing a model which can predict the survivability of any passenger of the "infamous" titanic ship. The model train from the dataset provided on Kaggle regarding the sinking of the Titanic.

Boston Housing Project | Jupyter, Python, ML (06/2021 - Present)

- Developing and training a model to predict the price of any property in Boston (trained on Boston Housing Project dataset from Kaggle) and comparing different regression model to find the perfect fit.

Portfolio website | HTML, CSS (02/2021 - 02/2021)

- A static portfolio website to represent myself hosted on Github.
- <https://2231sshubham.github.io>

TECHNICAL SKILLS

Languages: C++, Python, SQL, JavaScript

Web Development(beginner): HTML, CSS

Ethical Hacking: Network Analysis, Pen-testing

ML & Data Science: Data preprocessing, Regression

ACHIEVEMENTS

Highest score at Interviewbit from the uni

3 star silver in Python at Hackerrank

LANGUAGES

English
